

TA8151

- High sensitive capacitance microphone measurement
- Large screen backlight display
- Maximum/minimum measurement function
- Measurable environmental noise and mechanical noise(only TA8152)
- Multi-position selection measurement(only TA8152)
- The measurable range is up to 30-130dB
- It can be widely used in families, communities, celebrations, workshops, industrial measurement, household electrical appliance inspection and other fields.

SPECIFICATIONS

Model	TA8151
Microphone	½ inch Condenser Microphone
Measuring level	30~130 dBA
Accuracy	±1.5dB
Frequency range	31.5HZ~8.5KHZ
Data hold	✓
Frequency weighting	A
Level range bar graph	✓
Range selection	-
Range over indication	✓
Battery indication	✓
Backlight display	✓
Max & Min hold function	✓
Digit & Resolution	4 digits & 0.1dB
Time weighting	-
Auto power off	✓
External power supply	-
Sampling frequency	2 times / sec
PACKING INFORMATION	
Power	AAA battery*2 pcs
LCD size	36*33mm
Product net weight	About 98g
Product size	205*55*30mm
Packing	Gift box
Standard quantity per carton	24
Standard carton size	45*38*55cm
Standard carton gross weight	About 15kg
