

MagicQ Mini Connect

Product Code: 200-027

The Mini Connect is a highly portable USB-powered control surface that couples physical playback control with the power of MagicQ software.

Attached to a Windows, Mac or Linux system running MagicQ software, the Mini Connect turns your computer into a powerful lighting, media and LED control center. Illuminated live show controls include 10 playback faders, Flash, Go and Select buttons, and a dedicated Grand Master fader.

The Mini Connect is ideal for theatres, venues, clubs and installations. With 1 direct DMX512 output and an onboard network port that sends up to 64 universes of ArtNet and sACN, the Mini Connect is also capable of commanding large shows as well as offering a cost-effective backup solution for users of larger MagicQ consoles.

Features

- 10 Playback Faders, 500 Pages
- In-built Network Interface
- 1 Direct DMX Output
- Connects to Free MagicQ Software – Windows, Mac or Linux
- USB Powered
